

# SOUTHWEST COORDINATION CENTER (SWCC)

"Cooperation Through Coordination"

Updated 1400 MDT July 19, 2011

---

**This smoke outlook is not currently being updated due to limited fire activity in the Region. If conditions warrant, an updated forecast will be posted.**

Your eyes are your best tools to determine if it's safe to be outside. Remember: if visibility is 10 miles and up, the air quality is Good; six to nine miles, air quality is Moderate; three to five miles, air quality is Unhealthy for Sensitive Groups; one and a half to two and a half miles, air quality is Unhealthy; one to one and a quarter miles, air quality is Very Unhealthy; and one mile or less, air quality is Hazardous.

**Updated information on fire activity in the Southwest can be found in the [SWCC Morning Intelligence Briefing](#).**

**A map of large fire location and links to other fire and smoke mapping resources is available [here](#).**

**New Mexicans who have questions about health-related issues in New Mexico due to smoke can call the New Mexico Nurse Advice Line at 1-877-725-2552. Those who want to talk to a mental health professional can call 1-866-HELP-1-NM.**

**More information about Wildfire Impacts to Air Quality including links to EPA radiation monitoring in the region can be found at [Wildfire Smoke Resources](#).**
